UI/UX
LAB ASSIGNMENT - 02

Aim: To conduct user research and develop personas and user scenarios.

Theory: The design is based on understanding user needs and improving the overall user experience. Five user personas - Khushi Mukti, Payashi, Ridahi and Kshitij - w identified each having different goals and difficulties while using online healthcare services.
The design focuses on simplifying the homepage and login process, providing personalized doctor recommendation, improving navigation, highlighting important inform and giving clear booking confirmation. atth It include features such as doctor search, appointment booking, medicine browsing, prescriptions and health record management.

Conclusion: The design addresses user's needs by providing easy navigation, convenient appointment booking, personalized recommendation and clear information. It aims to make online healthcare services more accessible, organized and user-friendly.
